At the core of the efforts to build a more democratic and privacy respectful Internet, lie organizations that develop and promote alternatives to centralized and abusive digital platforms. The pEp foundation, is such an organization, very active in promoting and implementing privacy and encryption tools. Through an in depth interview with Volker by sva, we learn who is behind the pEp foundation, which are its main activities, and how it is organized.

INTERVIEW WITH A SERVER

PEACE!

In the context of the EU project Cultures 4 Resilience, a server named-Lennon has been deployed at the L200 space, hosting a wide variety of small web sites in the neighbourhood. We took the opportunity to interview Lennon, and learn more about the server's perspective toward a more organic Internet, where servers are not lost somewhere in the cloud but grow from the ground.

SWISS MECHATRONIC ART SOCIETY
FORUM

The Swiss Mechatronic Art Society promote creatives in electronic technology, mechanics, IT and other related areas. We understand this to be a creative expression of the human mind, which is not primarily utilitarian, but distinguishes itself through a holistic embrace of the unique. In this, we place research, events, networking, exchange and elevation, and the preservation of quality in mechatronic art, to be central.

DON'T PANIC

The 40th birthday of the Chaos Computer Club inspired us to travel back in time with sva and with Klaus „Twiddlebit" Schleisiek to remember how the world looked in 1980/81 and how it came to be that a few "Computer freaks" decided to stop „scurring about in an uncoordinated way" and sat at the table of commune 1 in the TAZ.
